

PHYSICAL SECURITY SOLUTIONS

Sirvis provides premier Physical Security services across North America, seamlessly handling projects ranging from single-site installations to expansive, multi-site deployments with unmatched precision and expertise.

Access Control | Cameras | Alarm Systems | Infrastructure Cabling

- **Site Surveys** – We can provide site surveys in remote areas where it may not be cost effective for your partner.
- **Design & Installation** – Replacement, New Builds, Additions, Multi or Single Site.
- **Support** – Post-sales services such as camera realignment, reader or door hardware troubleshooting and more.

Access Controls

Sirvis delivers comprehensive access control solutions designed to secure facilities while ensuring smooth entry for authorized personnel. From keycard systems to biometric access, our deliverables include custom integration, installation, and ongoing support to enhance security while maintaining convenience.

Cameras

For robust surveillance in any environment, Sirvis offers tailored solutions with installation, monitoring capabilities, and integration into broader security systems, ensuring clear visibility and coverage for enhanced situational awareness and asset protection.

Alarm Systems

Sirvis delivers state-of-the-art alarm systems, designed to detect and alert in real-time against intrusions, fire hazards, and other threats. We provide full installation, integration with existing security setups.

Infrastructure Cabling

Our infrastructure cabling services ensure the backbone of your security and communication systems are reliable and scalable. Sirvis specializes in the design, installation, and maintenance of structured cabling for data, voice, and security systems, providing seamless connectivity and future-proofing your technology needs.

Our Commitment

We are committed to delivering top-tier, customized services ensures that your security infrastructure is always reliable, scalable, and tailored to your specific needs.
