MANAGED SOLUTIONS

SIRVIS END USER COMPUTE

- Azure Virtual Desktop (AVD)
- EUC Monitor & Maintain
- Thin Client Device Management

SIRVIS BARE METAL SERVERS

- Single-tenant Servers in an Opex, Pay-per-use Model
- Scalability & Rapid Provisioning of a Cloud Instance
- Flexible Month-to-Month Terms

SIRVIS MONITOR & MANAGE

- Monitor & Maintain
- Infrastructure Management
- Database Management, OS Upgrades, Hosting

SIRVIS PROTECT

- Backup as a Service (BaaS)
- Disaster Recovery as a Services (DRaaS)
- Recovery run time & Hosting in Sirvis Datacenter

SIRVIS SUPPORT

- Remote End User Help Desk
- 3rd Party Hardware Maintenance
- Level 3 Support, Ticketing System, Engineer Dispatch

SIRVIS SECURE

- Managed Security & SOC, Incident Response
- Security Risk Assessments, Penetration Testing
- Level 3 Support, Ticketing System, Engineer Dispatch

PHYSICAL SECURITY

- Access Control
- Video
- 24/7 Monitoring

ESG | SUSTAINABILITY

SIRVIS INTERACT

Exclusively Distributed by Sirvis in North America, Sirvis Interact is a machine learning application delivered as a Service, which provides mid-tier and enterprise data centers with tailored recommendations to significantly lower costs, optimize energy efficiency, and increase sustainability in their server estate.

SIRVIS INTERACT

- Analysis of your current IT hardware
- Cost, Energy, Carbon Footprint Projections, Modeling
- Vendor neutral IT hardware recommendations

IT REFRESH STRATEGY / SUSTAINABILITY

- Reduce Running Costs
- Reduce Energy Usage & Carbon Footprint
- Reduce Procurement Costs

DATACENTER DESIGN

- Refresh Recommendations, ROI/TCO Analysis
- Scope 3 Carbon Footprint
- Consolidation/Capacity Planning

DECOMMISSION & REPLACEMENT

- Efficiency Scores for Server Configurations
- Identify the Worst performers on Carbon, Electricity
- IT Asset Decommission Services (ITAD)

SIRVIS ASSET MANAGEMENT

- End-to-End Lifecycle Management of IT Assets
- Process Automation with CMDBs
- Audit Reporting for Security, Compliance & Finance
